HISTORY OF TUITION RATES

HISTORY OF TUITION RATES RESIDENT AND NONRESIDENT

Summary:

1. Prior to 1963-64: Tuition rates were set by the State Board of Agriculture and there were no specific references to these rates in the appropriation bills.
2. 1963-64: The appropriations for institutions of higher learning included the proviso, “Provided, however, that should total receipts estimated in the cash fund column be exceeded by reason only of an increase of tuition rates above those in effect at the time of the passage and approval of this act, the appropriation from the general fund shall be reduced in amount equal to the yield in excess of such estimated total.”
3. 1964-65: The appropriation did not include the proviso indicated for 1963-64.
4. 1965-66 through 1967-68: The appropriations included the proviso indicated for 1963-64.
5. 1968-69: The appropriation included the proviso, “provided, however, that should total receipts estimated in the cash fund column be exceeded by reason only of an increase in tuition rates above the following academic year rates, as approved by the Commission on Higher Education, the appropriation from the General Fund shall be reduced by an equal amount by Controller’s allotment.”
6. 1969-70 and 1970-71: The appropriation included the following proviso, “provided, however, that should total receipts estimated in the cash fund column be exceeded by reason only of an increase in tuition rates above the following academic year rates, as approved by the Commission on Higher Education, the appropriation from the General Fund shall be reduced by an equal amount by Controller’s allotment.” (The word “following” was struck as part of a veto by Governor J.A. Love.)
7. 1971-72: The appropriation included the following proviso, “Cash receipts are appropriated on the basis of the following academic tuition rates.”
